**DevOps & Deployment:** Docker, CI/CD Pipelines

**Testing:** API Testing (Postman)

**AI-Assisted Development:** GitHub Copilot, Cursor, Claude, AI-Assisted Code Review

**Tools & Practices:** Git, GitHub, GitLab, VS Code, Figma, JIRA, Asana, Agile/Scrum

## EXPERIENCE

### Barsys India Private Limited (Subsidiary of Barsys LLC)

Feb 2024 - Present

Full Stack Web Developer

New Delhi

- Develop and maintain Barsys.com in Next.js and React.js, shipping responsive pages and reusable components across the site.
- Design and deploy RESTful APIs with Node.js and Express.js, reducing response times through MongoDB query optimization and caching.
- Built a real-time data dashboard consolidating multiple data sources into a single view, used by product and marketing teams to guide feature prioritization.
- Integrated Google Analytics and third-party APIs to track user behavior, driving UX improvements and roadmap decisions.
- Translate business requirements into technical specs with product managers and designers, shipping features on Agile sprint cycles.

### Zexweb Technologies

Jun 2023 - Jan 2024

Full Stack Web Developer

Noida

- Developed and maintained the company marketing website, improving page load times and delivering full mobile responsiveness across devices.
- Built full-stack MERN applications end-to-end, from MongoDB schema design and Express.js/Node.js REST APIs to React.js frontends and deployment.
- Implemented input sanitization, secure authentication flows, and HTTPS enforcement to protect against XSS and CSRF vulnerabilities.
- Coordinated third-party vendors for the company's game applications, owning integrations, feature releases, and bug triage through JIRA.

### Arteva Consulting Private Limited

Nov 2017 - Oct 2018

Web Developer Trainee

Ghaziabad

- Built responsive client web pages with HTML5, CSS3, JavaScript, and Bootstrap under senior developer mentorship, with a focus on semantic HTML and cross-browser compatibility.
